## To insert a cam lock: (Please read below instructions before assembling)

1. Insert cam screw into hole as shown in diagram A .

Diagram B

Make sure not to insert the cam screw:  
Too deep as shown in figure B as this will cause the  
cam screw to be misaligned and unable to  
interlock properly.

Diagram C

Also avoid inserting the cam screw too close to the  
surface of the hole as shown in figure C, as this will  
cause the cam lock to be too loose, and not interlock  
properly.

2. Connect the panels together.

of the cam lock faces the cam screw.

4. To tighten the cam lock turn the cam lock clockwise
